

## Individual reflection

Week 1 | 23/3 - 27/3

.....

### **What do I want to learn or understand better?**

I want to refresh my knowledge about web development and learn new things, so I can help create a stylish and functional website.

### **How can I help someone else, or the entire team, to learn something new?**

I hope to share my knowledge about agile processes that I have gained from previous project courses, even though I still do not know a whole lot about it.

### **What is my contribution towards the team's use of Scrum?**

I set up a [scrum board using Trello](#) and added cards for each of the deliverables.

### **What is my contribution towards the team's deliveries?**

I attended the meetings about the social contract and wrote down some thoughts in the document.

I also created a layout for the documents we will hand in, but that is not very important.
